Career Objective / Skills / Interests

I have maintained a strong interest in the evolution of IT technology and its impact on society throughout my studies. I am particularly attracted to your company's approach of integrating cutting-edge technologies while emphasizing user-friendliness and delivering real value.

I aspire to join your team as an engineer and contribute to solving a wide range of challenges through my technical skills. I also resonate deeply with your open company culture and support systems for career growth, and I am enthusiastic about building a long-term career with your organization.
